

Rigorous and linear is the cut of this series of tables, in which the elegance is dictated by the proportion between the top and the two bases differentiated from each other by bulkheads of different sizes and placed in different positions. The combination of the proposed finishes makes the product compatible with different environments, including domestic ones.

The cut of this tables is rigorous and linear, dictating elegance by the proportion between the top and the two bases differentiated from each other by bulkheads of different sizes and placed in different positions. The combination of the proposed finishes makes the product compatible with different environments, including domestic ones.

Le due basi hanno una finitura opaca o metallizzata che si abbina e si contrappone al top rivestito da una finitura materica spatolata a mano, composta da sabbie, scaglie di metalli nobili e resina, in tre diverse proposte.

The two bases have a matte or metallic finish that matches and contrasts with the top covered with a hand-troweled material finish, composed of sands, flakes of noble metals and resin, in three different proposals.
