ENGLISH VER.

KOREAN VER.

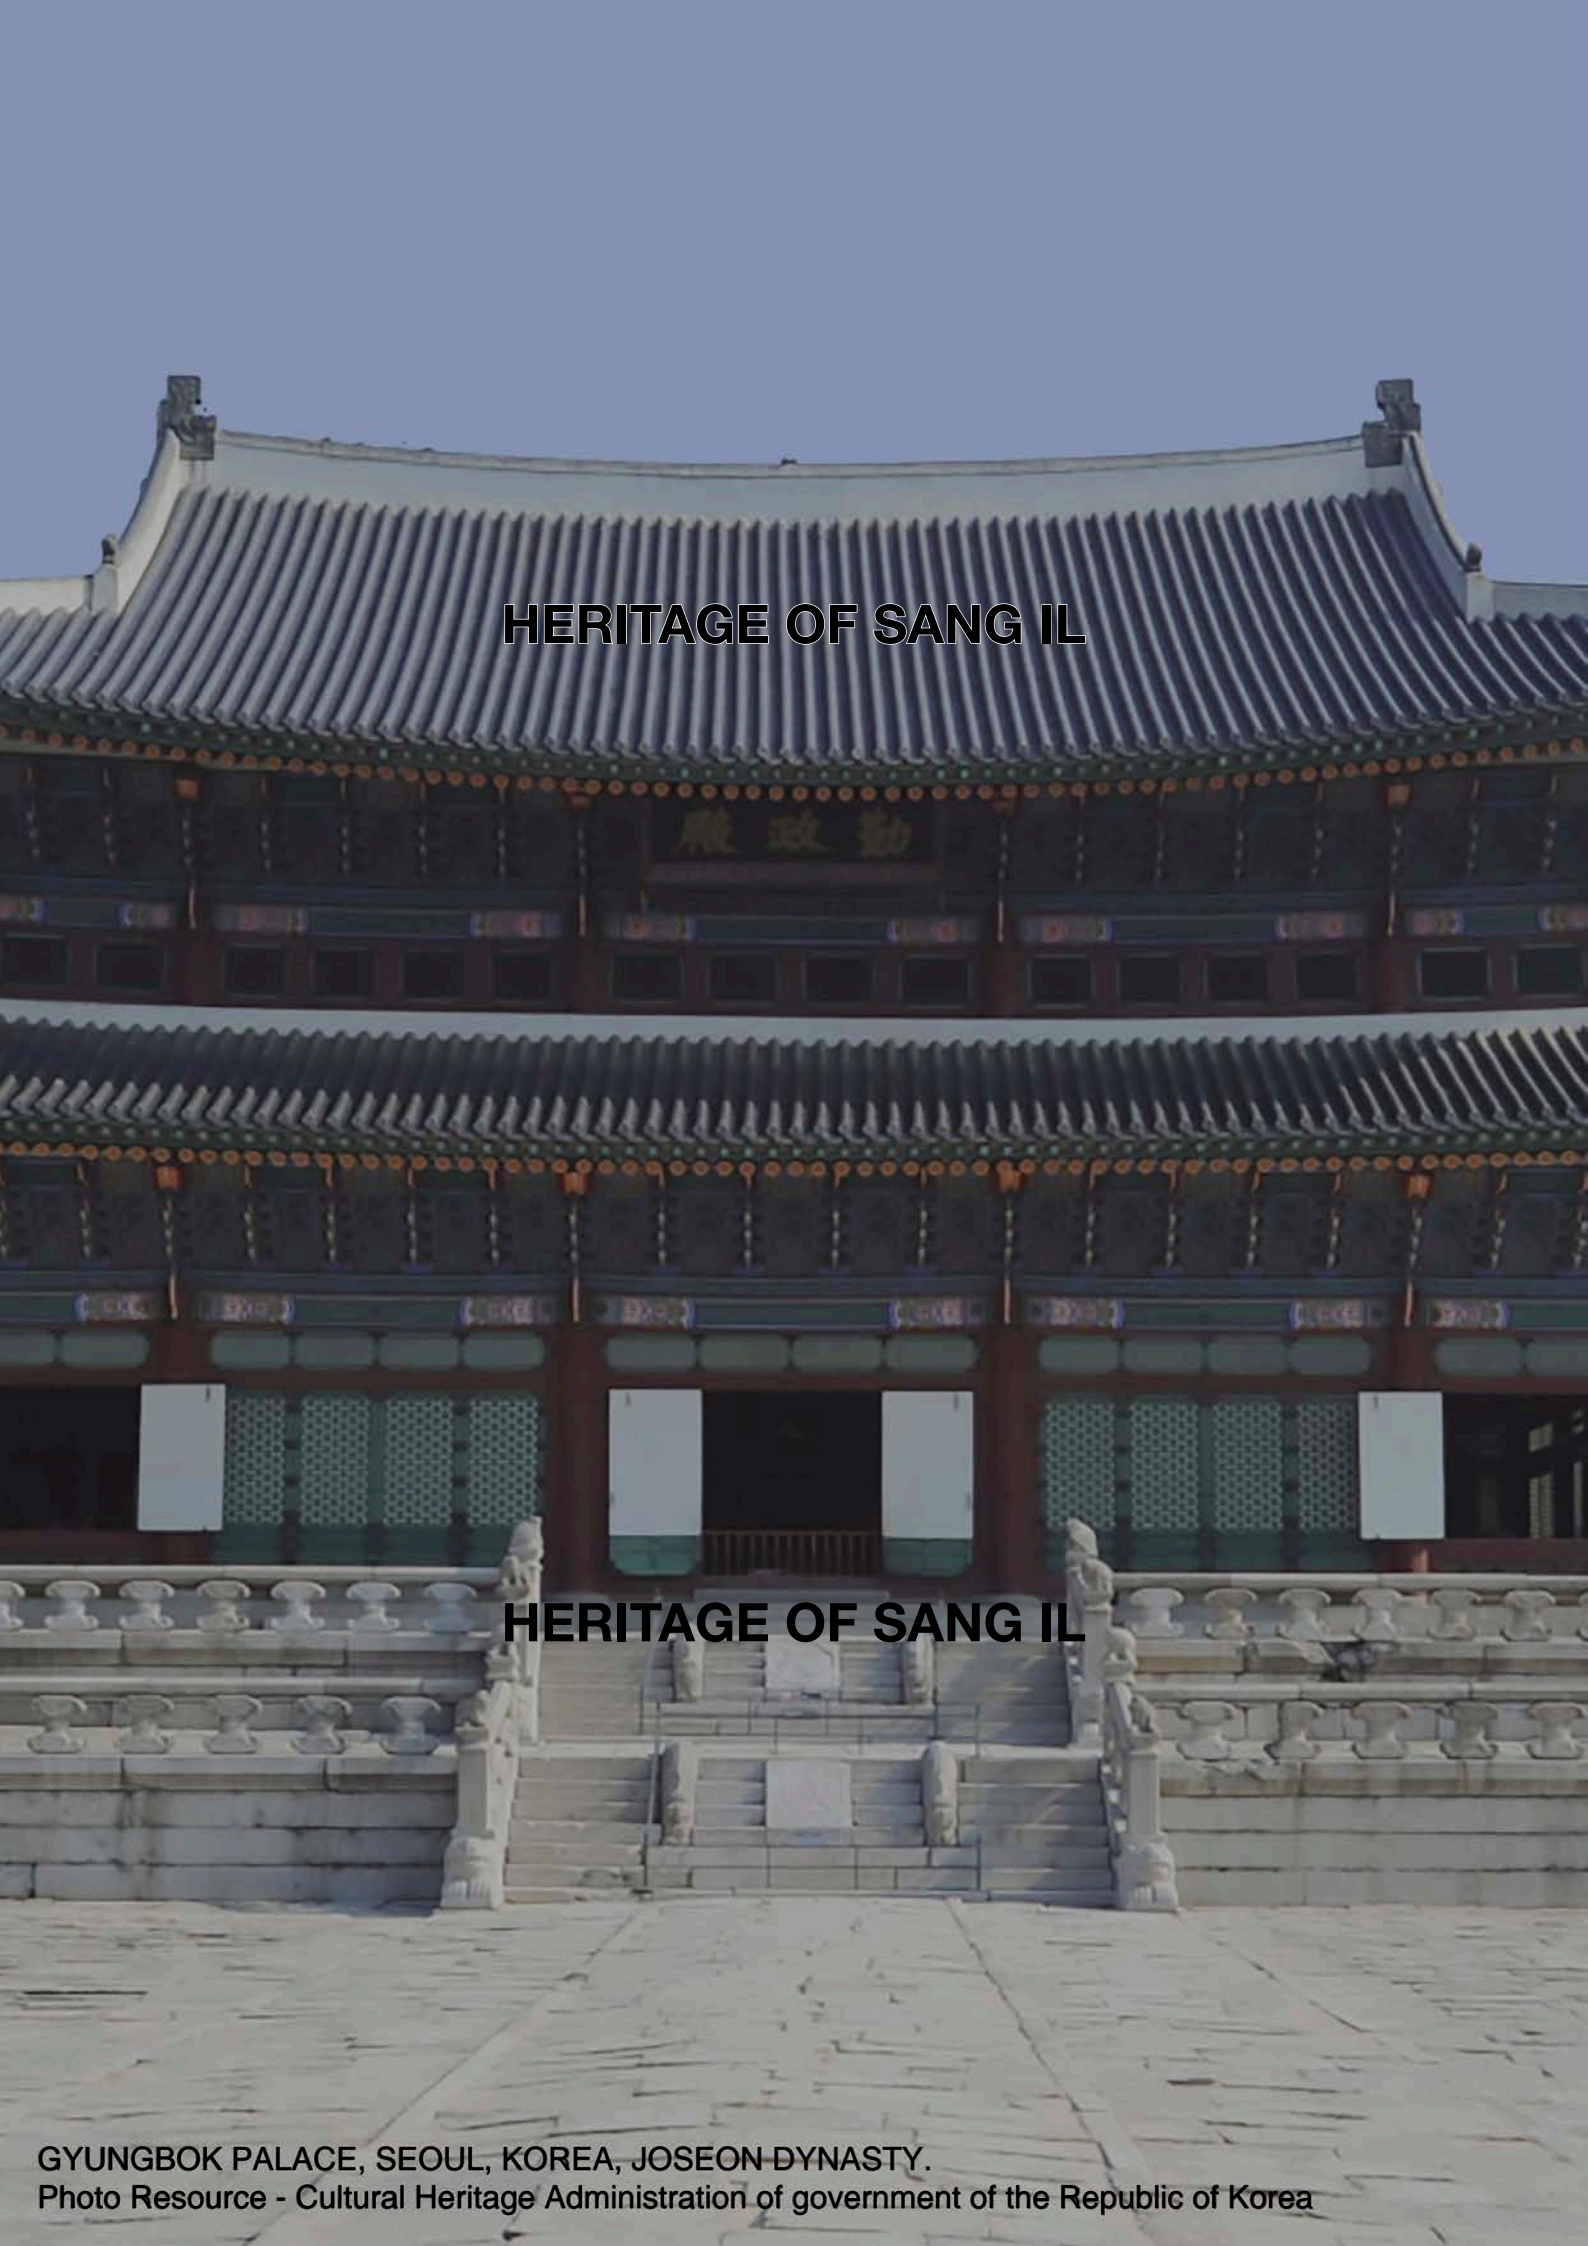

The identity of HERITAGE OF SANG IL was designed based on the facade of ‘Haan Ok(Korean traditional architecture)’ consisting of the foundation stone, pillars, and tile roofs.

HERITAGE OF SANG IL

HERITAGE OF SANG IL is designed with the idea that it will leave the timeless value of the heritage.

The spirit of heritage has timeless value.

HERITAGE OF SANG IL

HERITAGE OF SANG IL

This spirit is not only past but also tells the present.

Heritage is always with us.
It is always communicating with us, and the past,
present in the modern city center, is always speaking
to us who pass by.

If we do not forget the spirit of heritage, it is always
with us and is reinterpreted and reinvented by us
now.

HERITAGE So heritage is resurrected in a new appearance and
a new way asks us many questions and communi-
cates newly.

It gives us a lot of inspiration and joy and keeps us
from forgetting who we are.

So I design my work with thinking as heritage.

HERITAGE (

HERITAGE OF SANG IL
상일의유산

상일의유산

상일의유산

The past reminds us of a sad history that we can not forget.

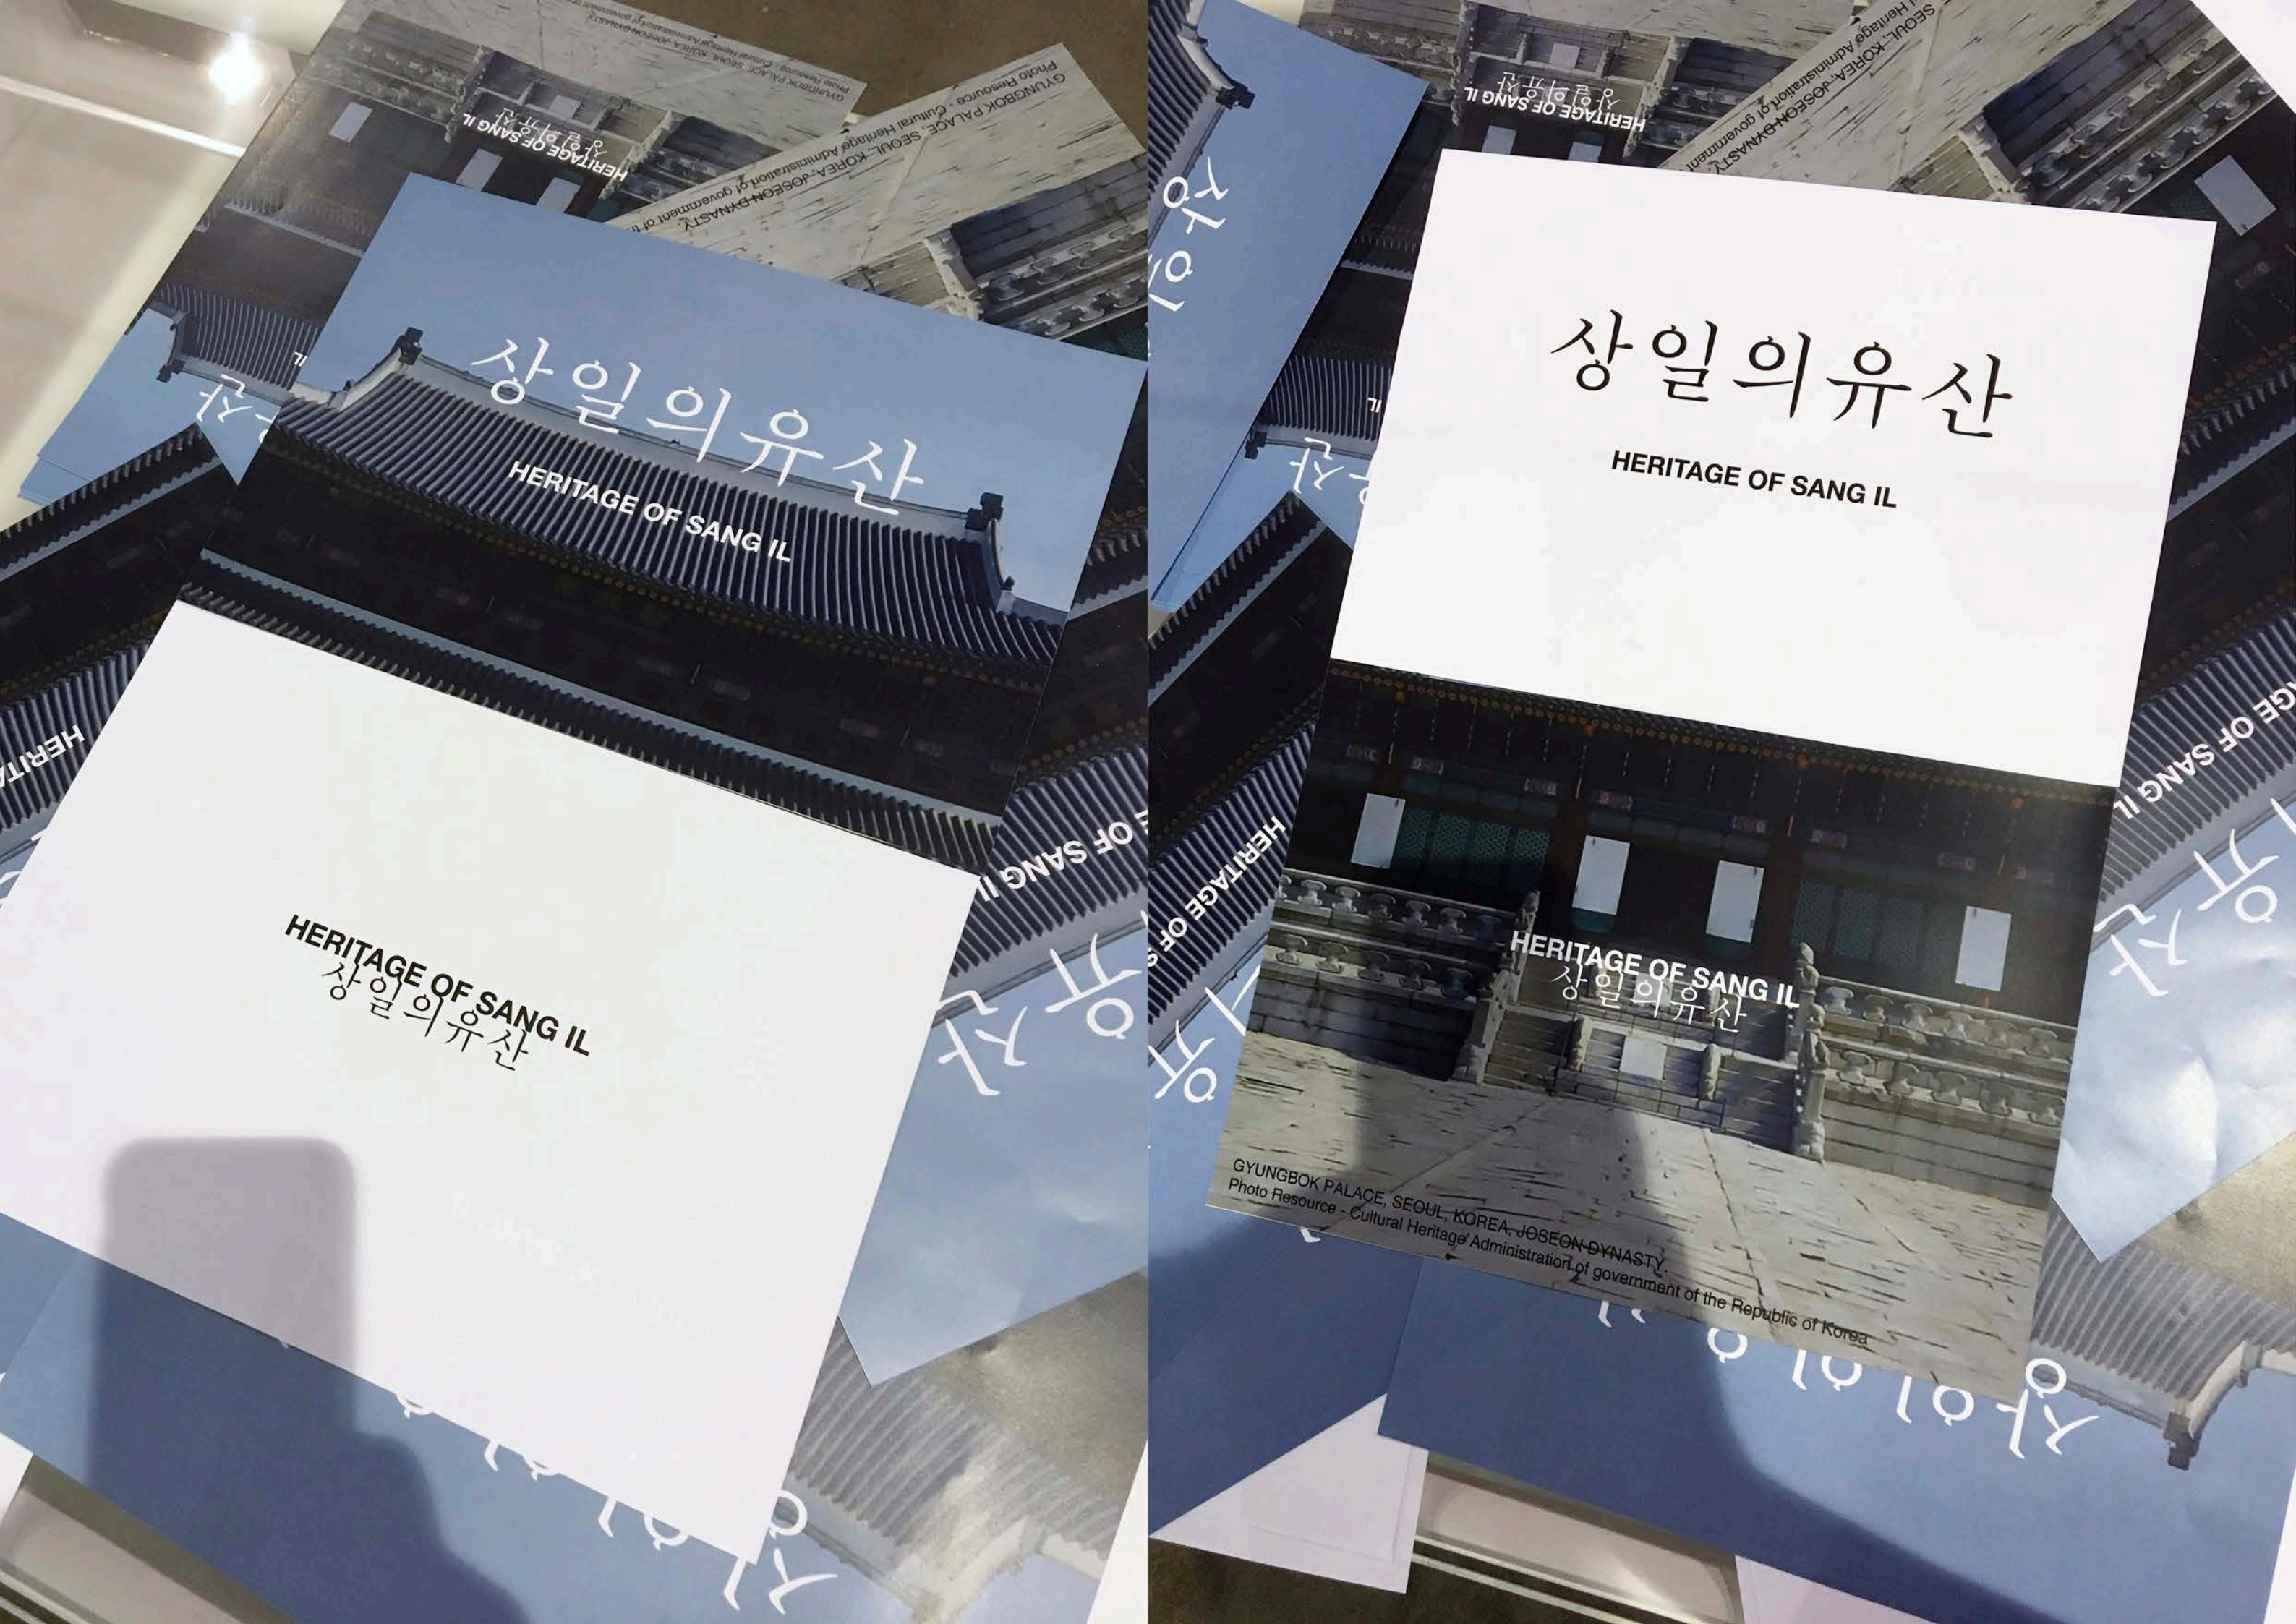

If there is a will to overcome the gloomy history without forgetting it, the dark past presents us with the possibility of a new age.

However, many sad histories are repeated without being overcome.
